

Arkansas Ag in the Classroom

Dr. Craig Wilson visits our state to lead a limited number of workshops. Dr. Wilson has worked and conducted scientific research on multiple continents. He shares this experience through fun, dynamic and interactive examples. These workshops are conducted in partnership with the USDA/ARS research centers and their scientists located in Arkansas.

- Get hands-on instruction and exposure to real world research projects by USDA/ARS scientists
 - NGSS aligned activities
 - 6 hours of CE credit from Texas A&M College of Science
 - A digital microscope for your classroom
- One-day visit during the coming school year from Dr. Wilson

July 26

Dale Bumpers Small Farms Research Center in Booneville, 9 a.m. - 2:30 p.m.

July 27

Judd Hill Cooperative Research Station in Trumann, 9 a.m. - 2:30 p.m.

Workshops are limited to first 25 teachers
